

Kids Country in Partnership with PECT

The Kids Country Winter Warmer Soup Challenge is a great way to get hands on and allow children to experiment with food.

If your school is interested in the Winter Warmer Soup Challenge but doesn't have the resources to participate, PECT can help teachers and students prepare for the competition. PECT offer support to schools through teacher CPD, in-school workshops, lesson plans and resources as well as whole school approaches and parent engagement.

If your school would like more information, please contact Amna Bell at abell@eastofengland.org.uk
